

The Domino A-Series Range

Quality ink jet printing in an easy-to-use, reliable package

The Domino A-Series continuous ink jet printer offers proven performance and reliability from basic coding applications to those requiring the highest print quality in the harshest of environments.

In conjunction with Domino's ink range, including Advanced, Specialist and Custom inks, the A-Series range provides quality, reliable codes in an easy-to-use package.

Key Benefits

With the Domino A-Series, reliability comes as standard

Whatever your production line requirements, the Domino A-Series prints consistently and reliably, requiring minimal operator intervention. Even after an uncontrolled shutdown, the Domino A-Series re-starts successfully.

The Domino A-Series has a unique ink system, meaning that it cleans itself!

The large internal reservoir and nozzle seal enable the A-Series to have truly automatic print head cleaning for unrivalled start-up and shut down performance.

The intelligent ink reservoir also ensures that ink changes are planned and carried out by operators, thereby avoiding emergency shut downs and the need for unscheduled servicing.

SureStart

An ergonomic user-interface, with one button controlling the complete start-up and shut down process, eliminates potential operator errors and delays associated with manual print head cleaning.

Consistent print quality, each and every time

Whether running continuously or shutting down daily, the A-Series always performs reliably.

Installed and up-and-running with one easy connection

Only an electrical connection is required, meaning the Domino A-Series printers are up-and-running without the need for a factory air supply.

Intelligent design allows printers to respond to the operating environment, regardless of humidity or temperature

The intelligent design of the A-Series means that the printer operates efficiently and effectively in a range of manufacturing environments.

Main Features

The Domino A-Series was designed with the customer in mind. Easy-to-use and highly reliable, with a Domino A-Series printer you can be assured that your codes will be readable and your production integrity maintained.

- The Domino A-Series range of printers can print up to 4 lines of code in a variety of different formats including: text, logos, automatic serial or batch numbering in addition to real-time clocks
- The unique sealed nozzle technology in the A-Series print head ensures that start-ups are always clean and dependable, even after extended periods of shut down
- The unique ink system of the Domino A-Series ensures a consistent level of performance in a wide range of operating conditions, as well as a consistent ink viscosity and maximum efficiency and reliability
- Fluid containers are colour coded and sealed, for quick and spill-free fitting
- Rugged stainless steel cabinet suitable for use in a range of manufacturing environments
- The real-time message monitor displays codes as they are printed and can be viewed at any time ensuring that you can code confidently at all times
- Easy to Use
The full sized keyboard and display makes it quick and easy to set up codes, whilst the function keys simplify operation

Domino Inks

The Domino ink range has been engineered for maximum reliability and uptime. The range includes Advanced, Specialist and Custom Inks, ensuring that whatever the application there is a well engineered Domino ink to support it.

Available in a range of colours, the Advanced ink range is a series of high performance, general purpose inks for use in everyday environments.

The Specialist range includes inks for highly specialised applications such as thermochromic inks for canning applications, invisible fluorescent inks for covert coding and inks for the Domino Egg Coder solution.

Highly experienced and skilled in ink development, Domino is also able to develop Custom inks for customers with specific requirements.

Applications

Ink jet coding has applications across a wide range of industry sectors, from food and beverage, pharmaceutical, cables and wires, and automotive parts. The Domino A-Series can make your life easier, no matter which application you require.

With specially designed inks, the availability of multiple print formats and languages, and the ability to code at high speed, the A-Series is ideal for all your coding and marking requirements.
